Reading Comprehension passages appearing on the GRE® Verbal Reasoning measure are drawn from a wide variety of disciplines and sources. Passages deal with subject-matter from the physical sciences, biological sciences, social sciences, arts and the humanities, and everyday topics. GRE reading comprehension questions seek to assess critical reading skills by using texts that exhibit a level of complexity comparable to that encountered in graduate school. Passages exhibiting this kind of graduate-level prose are adapted from material found in books and periodicals, both academic and nonacademic. Given that GRE reading passages are drawn from many different disciplines and sources, even well-prepared test takers are likely to encounter material with which they are not familiar. It is important to bear in mind, however, that all questions can be answered solely on the basis of information provided in the passage and that no specialized knowledge is assumed. Consequently, there is no need to try and acquaint oneself with every conceivable topic that might be covered by the Verbal Reasoning measure. Nonetheless, many test takers do have an interest in gaining more exposure to GRE-level reading material. For such individuals, the most fruitful approach would probably involve becoming more familiar with the kinds of logical reasoning and rhetorical patterns that are typically found in GRE reading passages. The best way of doing this is to read a wide variety of texts that exhibit similar features on a regular basis—or at least for a sustained period of time prior to the exam. Where are such texts to be found? The good news is that the graduate-level prose sampled by GRE passages is not only to be found in highly specialized academic journals. There are many excellent sites for developing the habit of reading challenging prose, many of which are readily accessible. Some of these include (but are not limited to): feature articles in newspapers such as The New York Times, The Guardian, or The Wall Street Journal; periodicals such as The Economist, Scientific American and London Review of Books; trade books by experts and journalists for general audiences. If you are interested in sampling academic prose in more specialized journals, online services for journal content (e.g., IOPscience2 and The Royal Society) provide links to interesting articles, some of which are open access. In addition to reading widely in a range of fields, you should cultivate the habit of reading closely and critically as you prepare for the GRE Verbal Reasoning measure. Focus on paragraphs that seem particularly dense in meaning and engage actively with the text: how would you sum up the author's larger point? What does a phrase used by the author mean in this specific context? What is not said but implied? Why does the author highlight this particular detail? Where is the argument most vulnerable to criticism? Ultimately, to succeed at GRE reading comprehension, how you read is just as important as what you read. In the GRE Reading Comprehension module, you will learn GRE-specific skills related to:Answering common question typesEngaging in each passageSummarizing paragraphsIdentifying the main ideaIdentifying common structuresEliminating incorrect answersPassage-specific questionsAdjusting your strategyCommon mythsRecommended readings 1. Lesson: Introduction to Reading Comprehension (5:10) 2. Lesson: Reading Comprehension Question Types (7:12) 3. Lesson: Reading Comprehension General Strategy (4:22) 4. Lesson: Engaging in the Passage (11:43) 5. Lesson: Summarizing each Paragraph (8:14) 6. Lesson: Identifying the Main Idea (7:02) 7. Lesson: Identifying the Correct Answer (7:02) 8. Lesson: Answering Certain Question Types (9:47) 9. Lesson: Miscellaneous Tips (3:50) 10. Question: Gophers (8:35) 11. Question: Rice Fiasco (7:52) 12. Question: Stalin's Message (5:42) 13. Lesson: Introduction to Argument Passages (10:22) 14. Lesson: Dissecting an Argument (10:34) 15. Question: Fitness Town (5:54) 16. Question: Polatish (6:20) Total viewing time for the GRE Reading Comprehension module: 120 minutes. Reading comprehension questions test your ability to understand a passage and answer questions on the basis of what is stated and implied in the passage. You need to read the passage first so that you can identify the main idea of the passage and appreciate features such as the author's tone and attitude as well as the organization of the passage. Scroll back to the relevant point in the text as you do each question. Reading comprehension questions comprise approximately 50% of the verbal reasoning section. One-fifth of reading comprehension questions specifically test critical reasoning abilities. We have included one or two such questions in each of our mini tests. Comprehension passages on the GRE vary in length from short extracts that take one and a half minutes to read, to ones that take three and a half minutes to read. Allow approximately 1 minute to answer each question after completing the reading. GRE passages will not normally have more than 4 questions per passage. Our mini tests contain two passages each with 3 or 4 questions and 1 or 2 critical reasoning questions. Each mini test should take 14 minutes. Practice GRE Reading Comprehension The reading passage is accompanied by a set of questions based on the passage and any introductory material that is given. Answer the questions according to what is stated or implied in the passage. Practice all the passages from the The Official Guide to the GRE revised General Test. If you are still having trouble you can refer to the advice given in the Kaplan GRE Verbal Workbook . + see more popular essays - hide popular essays âœœthe Case for Contaminationâœ by Kwame Anthony Appiah Essay Sleep Deprivation Explain How to Establish and Maintain a Safe and Supportive Learning Environment.
